CONTRIBUTIONS

Remember that the IRS contribution limits for an HSA for 2020 are \$3,550 for single coverage and \$7,100 for family coverage. Now is the time to review your year-to-date contribution totals to make sure you are maximizing your tax savings and that you will not over-contribute to your account.

- Accountholders 55 years of age or older can add a \$1,000 catch-up contribution to the above limits.
- If you have already over-contributed, the excess contributions and earnings must be removed to avoid paying penalties to the IRS. This can be accomplished by completing the Excess Contribution Removal Form.* To obtain the form, please call the number on the back of your Health Benefits Debit Card.
- If you had changes in your health plan coverage this year, you may need to prorate the contributions based on the months of each type of coverage.
- You can contribute for 2020 until the tax filing deadline of 2021. Be sure to clearly indicate the tax year on your contribution. If not indicated, contributions received in 2021 will be posted for 2021.
- Contributions can easily be scheduled online in the Member Website.
- The IRS contribution limits for HSAs in 2021 are \$3,600 for single and \$7,200 for family.

TAX DOCUMENTS

Your tax documents will be issued either via mail or posted in the Member Website based on your delivery preference on record with HSA Bank.
